Affected Public: Individuals or households; Businesses or other for profit; not for profit institutions; Federal Government.

Number of Respondents: 5,500.

Estimated Time Per Response: 30 minutes.

Description: Section 2(a) of the Service Contract (SCA) provides that every contract subject to the Act contain a provision specifying the minimum monetary wages and fringe benefits to be paid the various classes or service employees performing the contract work. The Secretary of Labor is charged with determining the minimum monetary wages and fringe benefits prevailing in the locality where the contract work is to be performed. It is necessary to design and conduct a statistically reliable, one-time survey of occupational employment on SCA-covered contracts. Form WH-SCA will be used for this purpose. Once this occupational distribution has been determined, the data will be utilized in evaluating alternative methodologies for estimating prevailing health and welfare benefits

for SCA-covered projects. The survey involves a random sample of a universe of approximately 83,000 contracts. The Employment Standards Administration, U.S. Department of Labor, has provided the University of Tennessee with the universe of SCA-covered contracts, which was obtained from the Federal Procurement Data System for the most recent years. The University has designed and selected a sample of contracts by three-digit SIC, and has designed a questionnaire with accompanying instructions and definitions.

Signed at Washington, DC, this 28th day of April 1995.

Kenneth A. Mills,

Departmental Clearance Officer.
